SUMMARY

UI/Front-End Developer with 12+ years of experience and a strong foundation in visual design. Specialized in Angular, React, SCSS, and accessibility (508 compliance), with a proven ability to translate complex Figma designs into pixel-perfect, reusable components. Passionate about clean, maintainable code, user-first design, and building fast, inclusive, and accessible digital experiences.

PROFESSIONAL EXPERIENCE

SENIOR UI DEVELOPER – SOFTRAMS/TRIA FEDERAL

August 2019 – Present

- Developed accessible, responsive UIs for the MEARIS (CMS) platform using Angular, TypeScript, SCSS, Bootstrap 5, and Angular Material, setting a high standard for quality and 508 compliance.
- Designed and implemented modular, high-quality client-side code using Angular and TypeScript, developing cohesive modules, directives, pipes, and utilities to enhance component functionality and improve user experience.
- Collaborated with UX designers to craft polished Figma designs, then translated them into reusable, scalable Angular components, contributing to the foundation of a consistent UI design system.
- Proactively resolved mobile UI bugs outside of sprint scope, independently tracking and managing issues by creating JIRA backlog tickets for future sprint efforts.
- Frequently consulted as the team's UI/CSS subject matter expert and mentored developers on styling, accessibility and overall semantic structural build quality.
- Presented regularly in bi-weekly internal developer talks to share best practices, knowledge share, pair program, debug, and foster cross-team collaboration.

FRONT END DEVELOPER – KASEYA

June 2016 – August 2019

- Developed and maintained responsive features across multiple branded sites using HTML5, CSS3, JavaScript, PHP, and Bootstrap 4.
- Designed and integrated visual assets using Photoshop and Illustrator into WordPress, Drupal, and Jekyll CMS environments.
- Built Design Systems and scalable layouts with SASS, Flexbox, and ACF-based custom plugins; optimized workflows using Gulp, npm, and Git.
- Crafted SEO strategies, implemented Google Tag Manager, and utilized MySQL-based solutions to track site performance and support dynamic content on multiple domains.
- Collaborated with international and domestic teams on design, marketing, and backend implementations to deliver cohesive, data-informed digital experiences.
